

NEW From Victory Bear!

For Precast
& Tilt-up
Construction

"LC" SINGLE CHAMFER

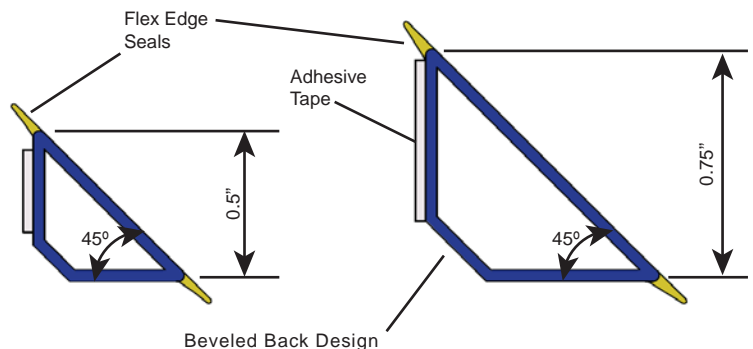

Victory Bear's new LC Single Chamfer provides the same excellent Victory Bear finish, but at a price comparable to that of a wood chamfer! Available in 1/2" and 3/4" depths, the LC Single Chamfer is low on cost, but huge on benefits!

Features & Benefits

- **New, efficient design** reduces product cost without sacrificing finish quality.
- **Flex Edge Seals** greatly reduce the need to caulk at the edges.
- Rigid PVC creates a **superior finish**, reducing costly patching and grinding work.
- Available with or without **adhesive tape** for mounting to the form or casting surface.
- **Beveled back design** provides clearance for weld joint between precast bed and form.
